Playing The Game

Locations

Farm

Where there's a farm, there are chickens and cows. And sometimes they get in the way. Do you know how to "moo-ve" them?

Princess Town is only the very beginning of the game in *Disney Princess: Royal Adventure*. Snow White, Jasmine, Ariel, Cinderella, Belle, and Aurora all have their own worlds that you'll get to enter and explore as you continue on your search for the missing treasures. Each world has its own secret entrance and special assignments that are certain to keep Lily very busy!

This moves the view around and may help you find where you're supposed to go.

Options

Music

Lily likes music, but it's okay with her if you choose not to play it. This turns the background music on or off.

Sound

This controls the sound effects in the game, like birds chirping or footsteps.

To change Music or Sound features:

1. Press the **+Control Pad** to highlight an option and then press the **A Button**.

To view the Credits:

1. Press the **+Control Pad** to highlight CREDITS and then press the **A Button**.
2. Press the **A Button** again to exit.

Extras

There is so much more to *Disney Princess: Royal Adventure* and it can all be found right here! Play extra games or watch special scenes from the main adventure game.

Mini-games

If you've already played a little bit of the main game, then you've probably already seen one or two of the mini-games. These are the puzzles that Lily must figure out in order to complete a task.

For example, in the main game, when Lily is instructed to visit the Potion Shop, she must pay attention to what bottles are used to create a certain potion and then repeat the recipe. The Potion Pouring Mini-game is pretty much this same puzzle, so it gives you a great chance to practice!

★ **Note:** you must first “unlock” a mini-game from within the main game in order to play it from the **Mini-games menu**.

Every mini-game has a difficulty level that you can choose depending on your skill level: Easy, Medium, or Hard. You can also choose a Tutorial mode that simply lets you practice a mini-game without any pressure.

To play a Mini-game:

1. Press the **+Control Pad** to highlight a Mini-game title and then press the **A Button**.
2. Press the **+Control Pad** to highlight a difficulty level and then press the **A Button**.

Special Scenes

As you make your way through the game, special cut-scenes play to show you what the game is about and prepare you for what's to come. After you pass these movies in the game, you can watch them again from this menu. But remember, you won't be able to see them here unless you've already “unlocked” them in the main game.
